

THISHARU DILHARA

Software Engineering Intern

✉ thisharud@gmail.com ☎ +94 772467590 🌐 Thisharu Dulaksha 🌐 Thisharu-Dilhara

📍 Kurunegala, Sri Lanka

PROFESSIONAL SUMMARY

Results-oriented Full-Stack Software Engineering undergraduate with hands-on experience designing and developing RESTful APIs, secure authentication systems, and responsive React.js interfaces. Proficient in Java/Spring Boot back-end development and PostgreSQL/MongoDB database design. Adept at delivering scalable, maintainable code using Agile methodologies. Actively seeking a Software Engineering Internship to apply full-stack skills in a production environment.

EDUCATION

Bachelor of Computer Science (General), Undergraduate, 2022 – 2026
University of Ruhuna Sri Lanka
Current GPA 3.0

Physical Science Stream, GCE Advanced Level Examination, 2021
Ibbagamuwa Central College Kurunegala
Results: B/ B/ B

TECHNICAL SKILLS

Programming Languages

Java, C, C#

Backend Development:

Spring Boot, Node.js (Express.js), .NET (ASP.NET Core)

Security & Authentication:

JWT, Spring Security

Cloud & Tools:

AWS (Fundamentals), Git, GitHub, Trello

Frontend Development:

React.js, Tailwind CSS

Databases

PostgreSQL, MySQL, MongoDB

Core Concepts:

OOP, REST APIs, Design Patterns, Agile Methodology

PROJECTS

FixMate – Service Marketplace Platform (Full Stack) | Final Year Group Project 📄

Designed and developed a full-stack service marketplace connecting customers with verified service providers.

- Built secure REST APIs (Spring Boot + JWT + RBAC) for customer registration, login, profile, and booking workflows.
- Designed a normalized PostgreSQL schema across 6+ entities – users, bookings, reviews, and payments.
- Implemented OTP email verification service, covering both account activation and transactional notifications.
- Integrated React.js frontend with backend APIs, delivering a unified end-to-end customer experience.

Tech: Spring Boot, Spring Security, React.js, PostgreSQL, REST APIs, JWT, Git

Online Cosmetic Shop – Role-Based E-Commerce System (Ongoing)

- Built a full-stack e-commerce app with Admin & Customer dashboards
- Developed search, filtering, and cart/checkout features
- Created REST APIs with Express.js and MongoDB
- Implemented JWT authentication & role-based access

Tech: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Git

CERTIFICATES

- Spring Framework 6 & Spring Boot 3 – Udemy 

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Marketing Team Leader – Rush Coder 3.0 Hackathon

Coordinated marketing efforts and team operations for a faculty-level hackathon event.

Captain of Science Faculty Volleyball Team

2025 – 2026

Led team strategy, coordination, and training sessions.

Represented the university volleyball team and secured 2nd Runner-Up at the 2024 Inter-University Championship.
